Introduction

- *Our project:*

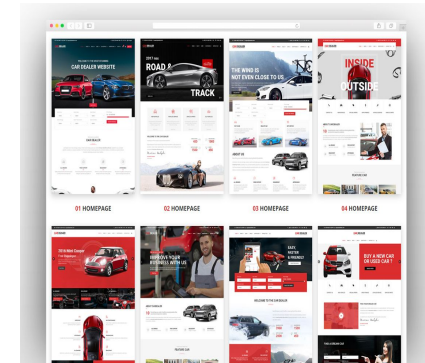

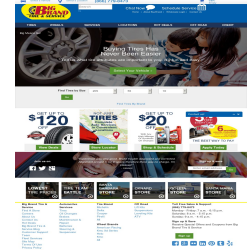

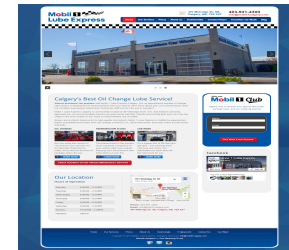

Problem statement

- *Timing:*
-
- *Pricing:*
- *Availability:*

Problem Solution

- **Existing solution:**
 - 30%-40% of car workshops have their own websites.
- **Our possible solution:**
 - Having both the customers and car workshops under one platform.
- **Why our team approached this solution?**
 - Saving time.
 - Fair and Reasonable prices.
 - Making easier for both parties.
 - Organized business.

Required Tools

- **Programming Tools:**

- Backend:
 - Android libraries
 - php
 - Google firebase
- Frontend:
 - Java
 - XML (designing layouts)

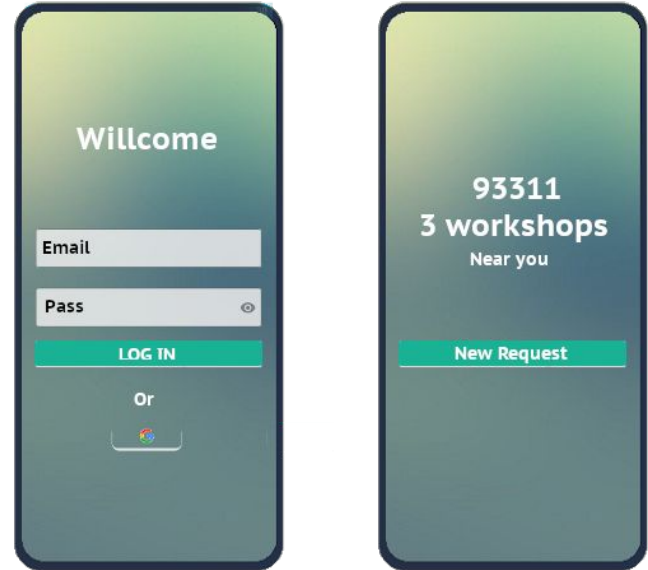

- **Software:**

- Operating system(Windows 10, Mac OS X)
- Android Studio
- Android API 28
